

## HOME THEATRE AUDIO WALL PLATES

### AUDIO WALL PLATES

A new expanded line of wall plates makes installation simpler than ever, and tidies up the increasing number of cables that advanced systems require. The **30-382** single speaker plate is ideal for the termination point of single speaker systems, and accepts bare wire or banana plugs. The **30-1515** is mounted on dual "J" boxes, supports two subwoofers, and has extra large spring-clips in front, and terminal strips in back. The new **30-1517** goes a step further by offering binding posts on back, and 5-way banana posts on front. 14 gauge max. The new **30-1519** is a triple wide plate supporting systems having 5, 6, or 7 speakers and 1 or 2 subwoofers. It has 5-way banana jacks front AND back, allowing minimal installation and set-up time as it supports the dual banana jack spacing. Easily accepts 10 gauge wire! The new **30-1520** is a quad-wide plate supporting systems having 5, 6, or 7 speakers and 1 or 2 subwoofers. It has 5-way banana jacks front and binding post on the back. Additionally, it has jacks for multi-room Stereo. 14 gauge max.
