

WIRE STRIPPERS

12-155

Fully Automatic Wire Stripper

10 to 26 AWG

Not for Teflon®

12-155

Stripper is so automatic that all you need to do is insert any insulated wire and squeeze the handles. Repetitively strips perfectly every time and automatically adjusts to any wire from 26 gauge up to 10 gauge. It will not strip Teflon insulation but neatly handles all other standard insulations. Blades are of an advanced sintered steel material and will yield long life.
