SOLDER SUCKER

Anti-static Solder Removal Tool

Replacement "O" Rings

Cat. No. 12-2106

~~Replacement Tips~~

~~Cat. No. 12-2107~~

A standard size (7-3/4" overall length) solder removal tool with a relatively large vacuum chamber that provides a greater solder pulling action than most designs. Dual "O" rings enhance the greater pulling power. Conductive tip insures ESD free operation when used by a grounded operator.
