

DESOLDERING BRAID

For use in the repair and rework of PCB's (printed circuit boards), computers, cell phones, and other electronics.

FEATURES:

- Made of clean, oxide-free, fine copper wire.
- Concentrated braiding makes use of less length of wick for each application.
- Easily removes solder from components or pads on a circuit board.
- Static dissipative bobbins.
- Tight weaves enables quick “on and off” desoldering.
- Uses flux classification type L0 per IPC J-STD-004B.
- Environmentally safe residue.
