

LUBE AND CLEANER

Ultra-pure, designed to clean, lubricate, protect and improve conductivity of contacts and metal connectors.

FEATURES:

- A one-step cleaner and lubricant.
- Protects against oxidation and corrosive buildup, extending the life of the equipment.
- Removes corrosion grease, oil, and other contaminant's from electronic and mechanical parts.
- Penetrates quickly and displaces moisture, leaving a protective lubricant for moving parts.
- Safe on most plastics.

54 Months Shelf Life (Unopened) from D.o.M.

PART No.	DESCRIPTION	SIZE
19-1907	Lube and Cleaner Aerosol	4 oz.

HTS: 2903.29.0000

CoO: USA

UPC: 010151195555

Part No. **19-1907**

Recommended For:

Stereos • Potentiometers • Tuners • PC Boards • TVs • Contacts • Rheostats • VCRs • Controls • A/V Mixers • Connectors • Copy Machines • Terminals • Laser Printers • Metering Devices • Motors • Fax Machines • Gears • Projectors • Mailing Machines • Cash Registers • Camcorders • Vacuums • Cameras • Sewing Machines • Locks • Tools • Nuts • Valves • Automotive Repair • Transmissions

DIRECTIONS: Remove electricity and all ignition sources before using. Insert extension tube firmly. Hold can upright. Spray toward surface 6 - 8 inches away.
For Tuners/Stereos: Disconnect AC plug from outlet and remove knobs. Check for plastic compatibility. Spray directly into openings. Reattach knobs and rotate in both directions. Distribute evenly and wipe off any excess.

Mechanical - spray parts, allow liquid to flush away contaminants, leaving the protective lubricant.
