

COMPUTER CABLE

USB 3.0 computer cable for PC, Consumer Electronics and Mobile Architectures. Fast, bidirectional, low-cost, dynamically attachable interface that is consistent with the requirements of the PC platforms of today and tomorrow.

USB-A 3.0 Plug to Micro USB-B Plug

FEATURES:

- 3 Meter (9.84 Ft.)
- Gold Plated 15 μ
- Color: Blue

BENEFITS:

- Plug-and-play connectivity
- Compatible with the following devices: camera, camcorder, scanners, printers, personal PC's, USB: phones, car chargers (*Ref. Part No. 30-3162 for more info.*) and other devices
- 3.0 standard specifies a maximum transmission speed of up to 5 Gbit/s (625 MB/s), which is over 10 times as fast as USB 2.0 (480 Mbit/s, or 60 MB/s). USB 3.0 reduces the time required for data transmission, reduces power consumption, and is backward compatible with USB 2.0.
